

## BRIGHT FUTURE SCHOOL

School Notice

Class: **Std.I-X**

No.:2024-25

Date: 15/04/2025

### **Dear Parents,**

This is to inform you that as per the directives of the Government of Maharashtra JE vaccination Camp would be arranged for the students between the age group of 1 to 15 years by the Pune Municipal Cooperation.

Japanese Encephalitis is a viral brain infection transmitted through mosquito bites, posing serious health risks, especially to children. Vaccination is the most effective way to prevent this life-threatening disease. The JE transmission in India occurs mostly in the monsoon and post monsoon season. Hence as a preventive measure the health department with the help of PMC will carry on the vaccination drive for students of all schools in Pune District.

### **Note:**

Parents of students who are willing to go ahead with the JE vaccination can call the School admin department and register the students name for getting vaccinated.
